SERVING THE NEEDS OF THE COMMUNITY

Executives want an opportunity to **engage with a cross-industry network of peers** on a continual basis to explore critical issues.

Executives want a forum where content is **member-driven**, aligned with critical issues, and constantly evolving.

Executives want a platform with impactful insights from peers to **develop the next generation of leaders** from within their own teams.

Executives are searching for **current thought leadership** – content both relevant and easily accessible.

THE VALUE:

A UNIQUE VALUE PROPOSITION

ANNUAL COUNCIL MEETING*

*Now VIRTUAL!

October 2020

Each year, Council members come together to meet one another and collaborate to set the Critical Issues Agenda for the year ahead. These issues then guide the development of our live events, virtual events, and curated content on the portal. Setting the Critical Issues Agenda is a key role in ensuring the content for the Council is driven by its members.

WHAT WE DO - CRITICAL ISSUES AGENDA: 2020

Predictive, Proactive, and Personal Care

Driving an effortless experience by meeting the unexpressed needs of your customer, and allocating resources for greater impact.

Operational, Efficiency and Effectiveness

The C-Suite demand for operational efficiency & effectiveness remains unabated. Finding ways to continuously improve processes & keep your CFO happy is critical to long term success in any contact center. Plan for the “must have” people, process, & technology needed to meet the expectations placed on you by senior management.

Self-Serve

Aligning your brand strategy (high touch, low touch) with self-serve strategy is critical to the successful automation of your customer interactions. Mapping the self-serve customer journey experience is a success factor for understanding and enhancing those interactions, and delivering ROI.

Effortless Agent Experience

Getting the agent experience right is your first step in delivering a true effortless experience for your customers.

Automation

Practical application of automation: what you can do today to move the needle.

Transformational Talent

Building external ecosystems are essential for future innovation that enables sustainable outcomes.

“The Leadership Council is an incredible network of executives that tackle the current challenges of the industry as well as work on developing thought leadership around tomorrow’s challenges. The level of engagement, problem solving and forward thinking has driven me to continue being a member of this community. Whenever I have a challenge or problem, I can count on one of my colleagues in the Council to have a thought provoking idea or solution around the topic. It is truly one of the most valuable organizations I belong to.”
