THEN & NOW: THE BEGINNINGS OF THE CUSTOMER ENGAGEMENT LEADERSHIP COUNCIL

Frost & Sullivan launched an Executive Events division to provide senior-level management execs with insights into market opportunities, competitive threats, technical trends, emerging markets and competitive strategies.

The Customer Engagement Leadership Council was founded as a member-driven organization. The Council serves as an enabler for business leaders to deepen customer engagement by focusing on the intersection of critical business and technology issues that will drive growth for themselves and their organizations.

Two Customer Contact Executive MindXchange Events launched in the US; One launched in Europe.

Frost & Sullivan was founded as a research and consulting firm focused on new technologies, distribution channels and business trends.

Frost & Sullivan flipped the traditional model of a conference upside down and launched the Executive MindXchange series, which places event participants at the center of the agenda - delivering true value based on participant best-practice sharing.

The Frost & Sullivan Research and Growth Consulting practices launched a program to recognize companies who are breaking new ground in customer service excellence.

The Customer Engagement Leadership Council expands with the founding of the European Customer Engagement Leadership Council.

PURPOSE: SERVING THE NEEDS OF THE COMMUNITY

MEMBER-VOTED CRITICAL ISSUES AGENDA

ANNUAL COUNCIL MEETING*

*Now VIRTUAL!

October 2020

Each year, Council members come together to meet one another and collaborate to set the Critical Issues Agenda for the year ahead. These issues then guide the development of our live events, virtual events, and curated content on the member-only portal. Setting the Critical Issues Agenda is a key role in ensuring the content for the Council is driven by its members.

Predictive, Proactive, and Personal Care

Driving an effortless experience by meeting the unexpressed needs of your customer, and allocating resources for greater impact.

Operational, Efficiency and Effectiveness

The C-Suite demand for operational efficiency & effectiveness remains unabated. Finding ways to continuously improve processes & keep your CFO happy is critical to long term success in any contact center. Plan for the “must have” people, process, & technology needed to meet the expectations placed on you by senior management.

Self-Serve

Aligning your brand strategy (high touch, low touch) with self-serve strategy is critical to the successful automation of your customer interactions. Mapping the self-serve customer journey experience is a success factor for understanding and enhancing those interactions, and delivering ROI.

Effortless Agent Experience

Getting the agent experience right is your first step in delivering a true effortless experience for your customers.

Automation

Practical application of automation: what you can do today to move the needle.

Transformational Talent

Building external ecosystems are essential for future innovation that enables sustainable outcomes.

“The Leadership Council is an incredible network of executives that tackle the current challenges of the industry as well as work on developing thought leadership around tomorrow’s challenges. The level of engagement, problem solving and forward thinking has driven me to continue being a member of this community. Whenever I have a challenge or problem, I can count on one of my colleagues in the Council to have a thought provoking idea or solution around the topic. It is truly one of the most valuable organizations I belong to.”
