THEN & NOW: THE BEGINNINGS OF THE CUSTOMER ENGAGEMENT LEADERSHIP COUNCIL

Frost & Sullivan launched an Executive Events division to provide senior-level management execs with insights into market opportunities, competitive threats, technical trends, emerging markets and competitive strategies.

The Customer Engagement Leadership Council was founded as a member-driven organization. The Council serves as an enabler for business leaders to deepen customer engagement by focusing on the intersection of critical business and technology issues that will drive growth for themselves and their organizations.

Two Customer Contact Executive MindXchange Events launched in the US; One launched in Europe.

PURPOSE: SERVING THE NEEDS OF THE COMMUNITY

Executives want an opportunity to **engage with a cross-industry network of peers** on a continual basis to explore critical issues.

Executives want a forum where content is **member-driven**, aligned with critical issues, and constantly evolving.

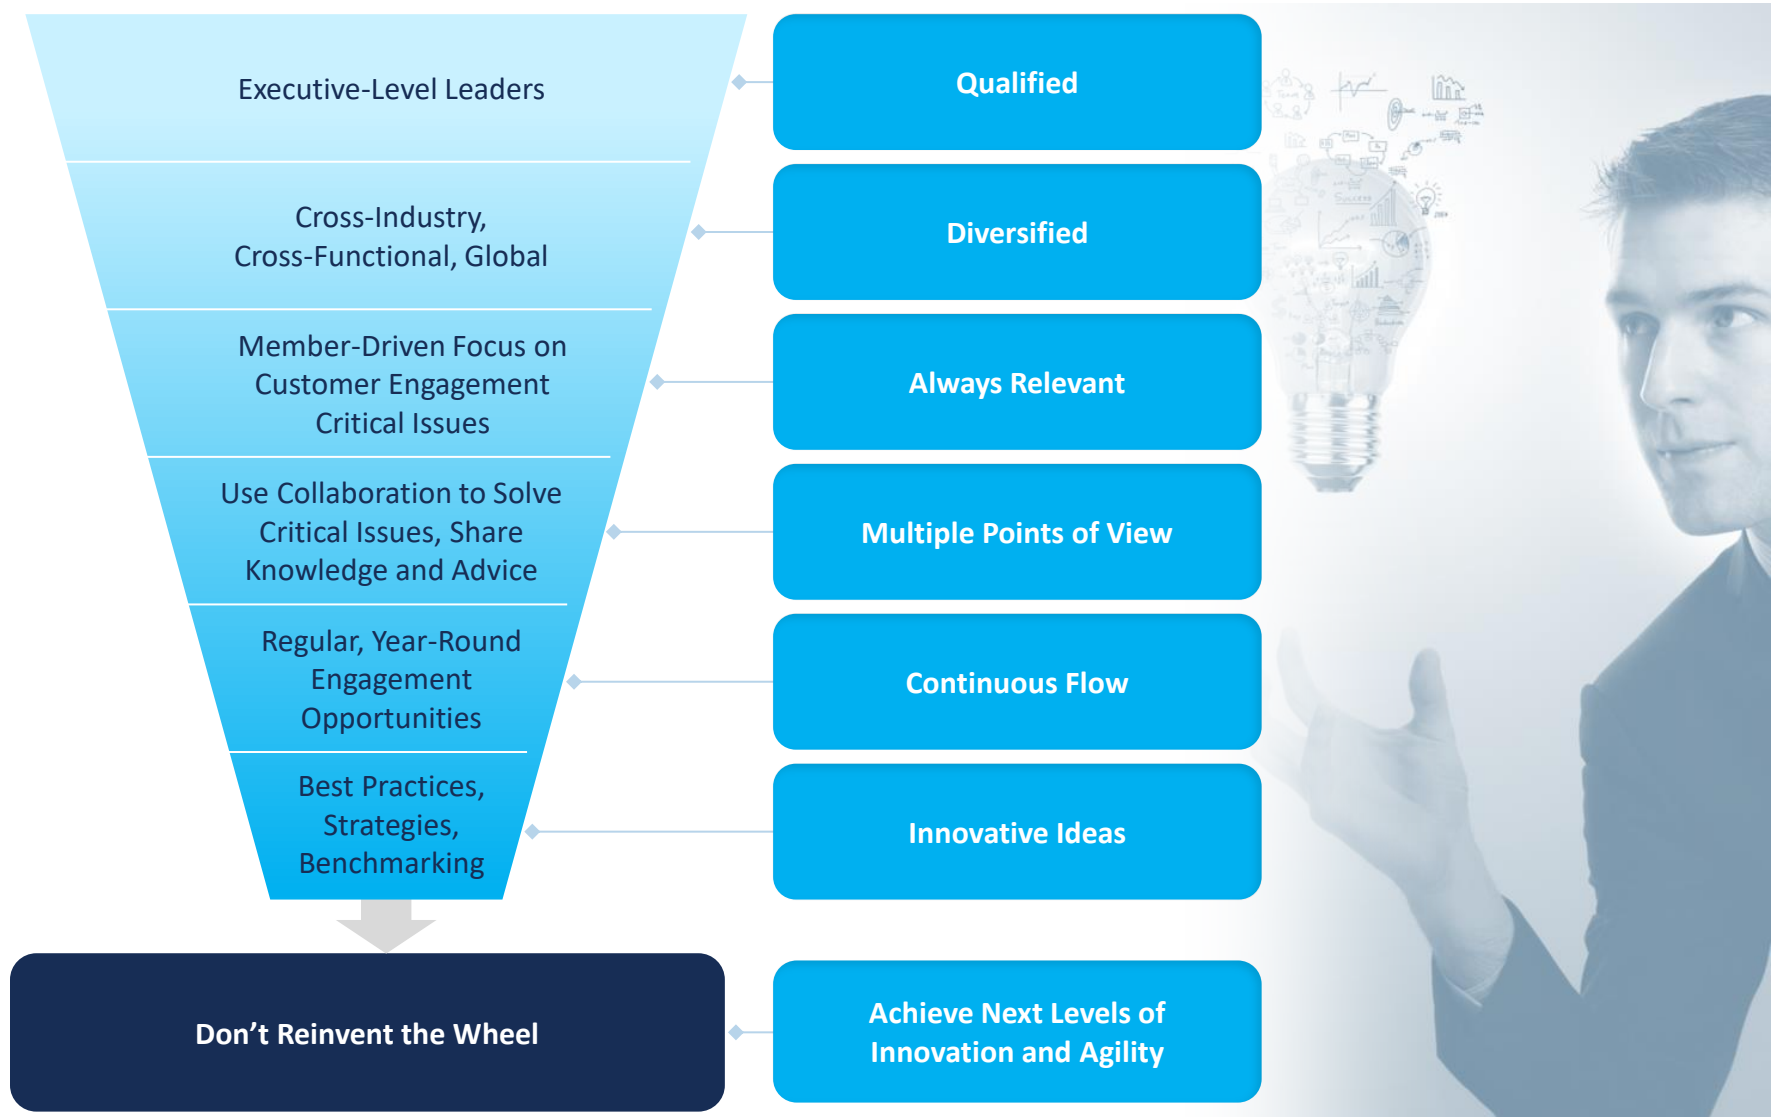

Executives want a platform with impactful insights from peers to **develop the next generation of leaders** from within their own teams.

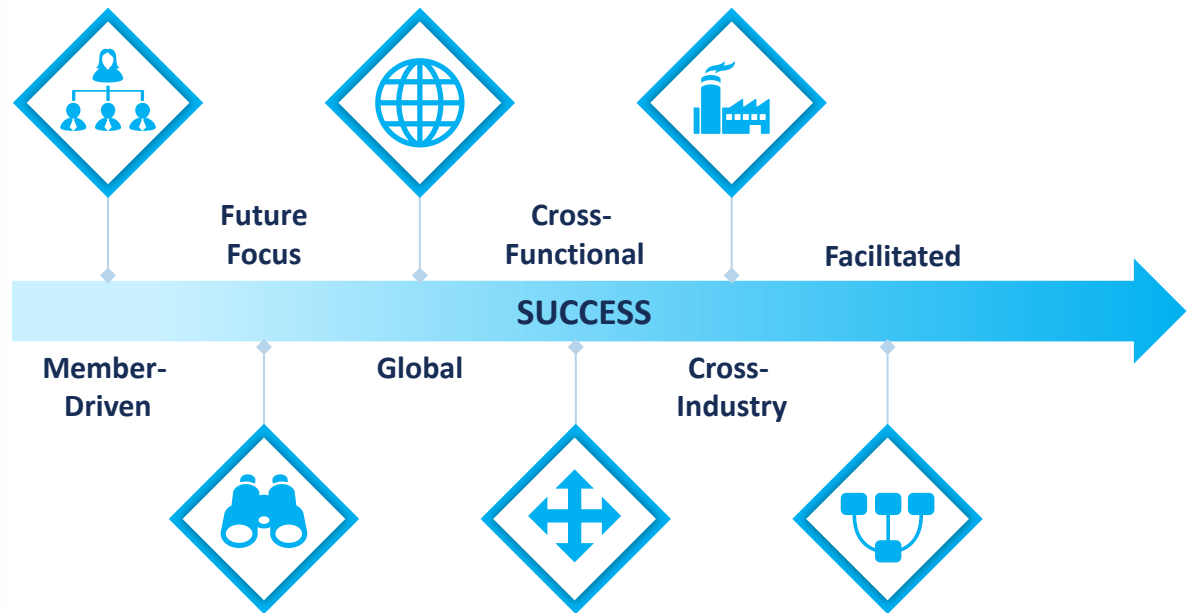

Executives are searching for **current thought leadership** – content both relevant and easily accessible.

THE VALUE:

MEMBER-VOTED CRITICAL ISSUES AGENDA

ANNUAL COUNCIL MEETING*

*Part of Customer Contact West: A Frost & Sullivan Executive MindXchange event.

October 2021 – Tucson, Arizona

Each year, Council members come together to meet one another and collaborate to set the Critical Issues Agenda for the year ahead. These issues then guide the development of our live events, virtual events, and curated content on the member-only portal. Setting the Critical Issues Agenda is a key role in ensuring the content for the Council is driven by its members.

Predictive, Proactive, and Personal Care

Driving an effortless experience by meeting the unexpressed needs of your customer, and allocating resources for greater impact.

Operational, Efficiency and Effectiveness

The C-Suite demand for operational efficiency & effectiveness remains unabated. Finding ways to continuously improve processes & keep your CFO happy is critical to long term success in any contact center. Plan for the “must have” people, process, & technology needed to meet the expectations placed on you by senior management.

Self-Serve

Aligning your brand strategy (high touch, low touch) with self-serve strategy is critical to the successful automation of your customer interactions. Mapping the self-serve customer journey experience is a success factor for understanding and enhancing those interactions, and delivering ROI.

Effortless Agent Experience

Getting the agent experience right is your first step in delivering a true effortless experience for your customers.

Automation

Practical application of automation: what you can do today to move the needle.

Transformational Talent

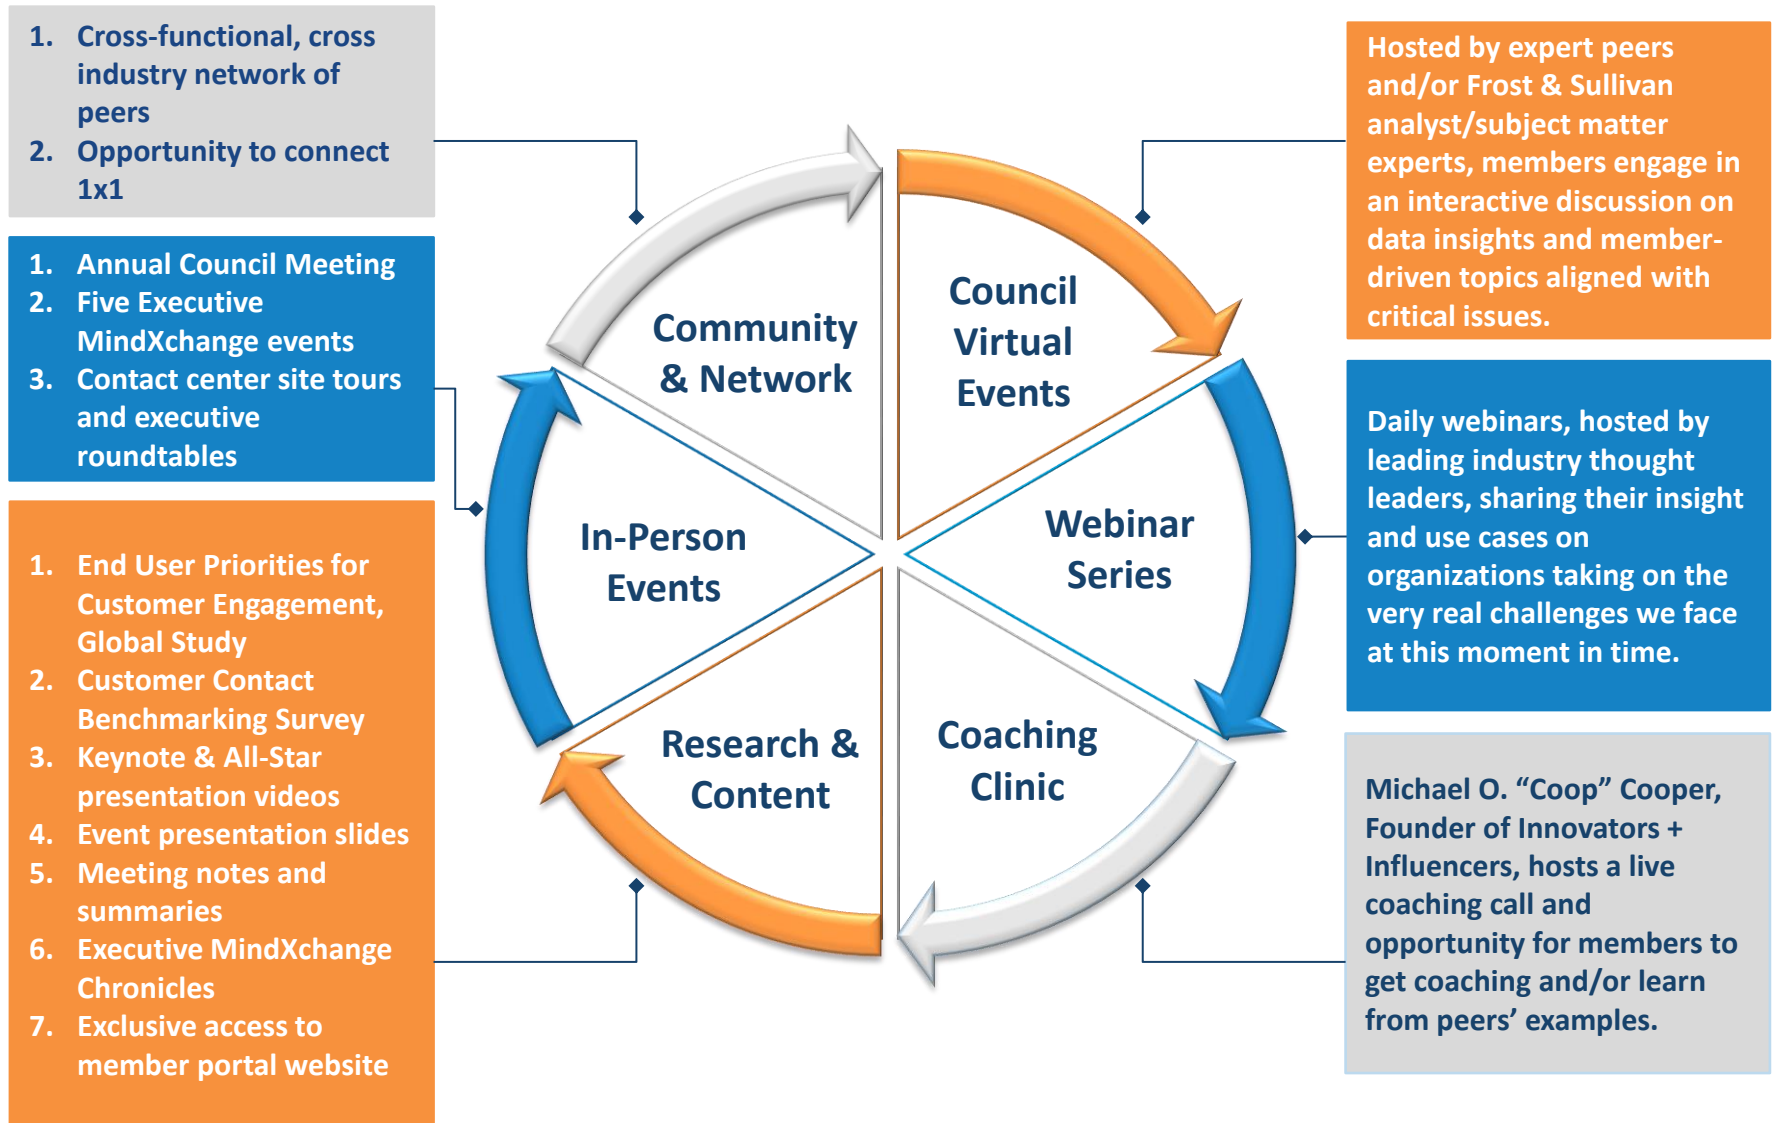

Building external ecosystems are essential for future innovation that enables sustainable outcomes.
